

## FEDERAL OCCUPATIONAL HEALTH

Improving the health, safety, and productivity of our Federal employees.

### LILLIAN KOENIG

Lillian Koenig serves as the Deputy Director of Federal Occupational Health Service (FOH) within the U. S. Department of Health and Human Services (HHS).

As the Deputy Director, she oversees the daily operations of this comprehensive occupational health \$165 million national program. Ms. Koenig's focus for the FOH program has always been on outstanding customer service resulting from the delivery of the highest quality occupational health services. She has led a change initiative to redesign the organization to a more customer centric and business focused team resulting in the establishment of two new Divisions – Business Development and Administration and Resource Management – and the ongoing re-engineering of critical internal processes that continue to improve the model.

Lillian has performed various functions and roles within FOH over the past 21 years to include a direct care provider, an account manager for numerous metropolitan DC and national federal customers, Associate Director of Customer Service, Chief of Operations and Acting Director. Her commitment to improved employee health and wellness across the government has been a constant theme throughout her career. Lillian serves as the HHS primary point of contact with OPM for Health and Wellness Programs within the Department.

Ms. Koenig is a Registered Nurse with a B.S. in Nursing, a B.A. in Fine Arts and Photography and a M.S. in Outdoor Recreation. As a Captain in the Army Nurse Corps, she provided direct care to our servicemen at home and abroad. Throughout her career she has been committed to the promotion of improved health in the private and public sector as a weight management consultant and as a health educator. Working for FOH provides the ideal avenue for the greatest impact for health improvement. Ms. Koenig believes the entire federal workforce can benefit from the services FOH offers that result in improved health, safety and employee productivity.
